<a href="#">Yearling Creek Disc Golf Course</a>	Kootenay Crossing, BC	6755	2059	60	Black Diamond (Long)

## List Notes

1. UDisc course names and locations were used (with minor edits for space) so that players using this list to find courses on UDisc will see the same information.
2. The original question/request was for courses that were in the 8000' range or more and Par 67 range or more. The final list presented here is more inclusive but only includes courses that are at least 7000'+ or Par 60+.
3. I have not grouped, highlighted, or singled out courses for the fact that they did or did not meet one of its bars, it's alphabetical.
4. No safari courses (crossing fairways, etc) were included.
5. There are a few courses that are either "Winter Only" or "Winter" layouts, just be aware if you want to try to hit them that they are only seasonally available. Same goes for "Private", you'll need to verify access before showing up.
6. Only used information that is currently Live on UDisc.
7. This has nothing to do with quality or qualitative judgments, and is in no way exhaustive. It's just a starting list of some of the biggest courses in the country! I look forward to growing it!
8. Fluent Disc Sport Inc. takes no responsibility for the information presented in this list or its accuracy, it has been sourced from UDisc and is only reproduced here as a compilation for reference.
